To whom it may concern

Margony Design & Build Ltd and their team worked on the full refurbishment and extension of our house.

We are extremely happy that we've worked with them - contrary to all expectations when starting such an extensive building work, Nikola - the company managing director made it feel easy and pain free.

Nikola is very experienced and has a wide range of expertise. He has a sound opinion on all the trades involved and was able to answer any question we had and address any challenge we met in a very clear and helpful way.

The quality of the work they have done has been outstanding first time - and we're very satisfied to know that not only all the core building work and utilities work are sound, but also that the decoration is perfect in every single detail.

More than just being excellent at what they do, Nikola and his team have been a pleasure to work with - flexible, understanding, friendly and enthusiastic. They have been very committed to complete the work to high standards, but have also been very responsive after the work had been completed to answer any outstanding questions we had - invaluable personal qualities.

We highly recommend them for any type of building work!

Kind regards

Aurelie & Lucas Bauge
