Re: Margony Design & Build Ltd

This company has carried out extensive refurbishment of our London home over the last seven years. This has included moving walls and installing a lavatory and showers; building a new terrace with French windows; building shelves, wardrobes and cupboards; re-wiring and plumbing; plastering and redecorating internally and externally; designing and installing radiator cupboards.

The work has been carried out to a very high standard – for example in restoring the ceiling friezes. The workmen have been courteous in minimising the obvious inconvenience involved in such major work and are the kind of people one is comfortable to have around the house with little supervision.

We have no hesitation in recommending them and are willing to have their work inspected at our West Hampstead home at a mutually convenient time.

Yours sincerely

Hugh and Mary Macpherson
